SUMMARY

Full Stack Developer with hands-on experience building scalable, secure, and responsive web applications using **React.js**, **Next.js**, **Node.js**, **JavaScript**, and REST APIs. Experienced in developing modern user interfaces, backend services, authentication and authorization, database integration with **MySQL**, **MongoDB**, and Oracle Database, and delivering end-to-end **MERN** stack applications. Proficient in Salesforce development using Apex and Lightning Web Components (LWC), with expertise in **AI-assisted development**, **Prompt Engineering**, and **Claude Code** to accelerate software delivery and improve development workflows.

SKILLS

Languages: Python , Java, JavaScript , SQL , PHP , C++

Frontend: HTML , CSS , JavaScript, React.js, Next.js, Tailwind CSS, Bootstrap

Backend: Python, TypeScript, Node.js, Express.js, PHP, Apex, REST APIs

Databases: MySQL, MongoDB, PostgreSQL, Oracle Database

AI/ML: Machine Learning , Data Analysis , Generative AI , Claude Code

Cloud & Tools: Google Cloud Platform (GCP) , Git , GitHub , VS Code

Salesforce: Apex, Lightning Web Components, SOQL, SOSL, Apex Triggers, Lightning App Builder

INTERNSHIP

Salesforce - Placement Management System

June 2026 - July 2026

- Developed a Placement Management System on Salesforce using Lightning Web Components (LWC), Apex, SOQL/SOSL, and custom objects to automate student registration, company management, application tracking, and placement workflows.
- Designed and implemented Apex Classes, Apex Triggers, Validation Rules, and Record-Triggered Flows to automate business processes, enforce data integrity, and streamline placement operations across multiple Salesforce objects.
- Optimized application performance by writing efficient SOQL/SOSL queries, following Salesforce development best practices, and creating scalable, maintainable solutions for handling placement-related data.
- Built responsive and reusable Lightning Web Components (LWC) integrated with Apex controllers to deliver an intuitive user interface and improve the experience for students, recruiters, and placement administrators.

PROJECTS

Secure Vault — HTML, CSS, JavaScript, Web Crypto API, SHA-256, Git, GitHub ([GitHub](#))

- Developed a secure file storage and management application implementing SHA-256 password hashing and the Web Crypto API to safeguard user credentials and strengthen client-side security.
- Designed and implemented a responsive, cross-browser compatible user interface using HTML, CSS, and JavaScript, delivering a seamless user experience across desktop and mobile devices.

Fresh Grocery Mart — React.js, Node.js, Express.js, MongoDB, JavaScript, REST APIs ([GitHub](#))

- Developed a full-stack grocery e-commerce platform with secure user authentication, product catalog, shopping cart, and order management functionalities using the MERN stack.
- Designed a responsive, intuitive, and mobile-friendly user interface using React.js, providing a seamless shopping experience across multiple devices and browsers.

EDUCATION

Gautam Buddha University, Greater Noida

B.Tech (CSE) Data Science

Aug 2023 - Aug 2027

Shri Sundar Lal Inter Collage, Barabanki

Class XII (Higher Secondary)

April 2022 - April 2023

ACHIEVEMENTS

- Participant Smart India Hackathon (SIH) 2025, collaborated on solving a real-world problem statement. ([LinkedIn](#))
- Completed Deloitte Data Analytics Job Simulation, gaining practical experience in data analysis and visualization. ([LinkedIn](#))
- Completed Tata GenAI Powered Data Analytics Job Simulation, applying AI-driven techniques for data analytics. ([LinkedIn](#))
- Certified in Google Cloud Computing Foundation - Generative AI, demonstrating cloud and AI fundamentals. ([LinkedIn](#))
